ABOUT ME

Highly motivated and detail-oriented student seeking an internship to apply academic knowledge in real-world projects. Skilled in problem-solving, teamwork, and adapting to new technologies. Eager to gain hands-on experience and contribute to innovative solutions in a professional environment.

PROJECT

Login Using Face Recognition

2023

- Technology: Python, PHP
- We are developing a secure login page using face recognition technology on Ubuntu to enhance security and eliminate the issue of forgotten passwords
- In this project, my role was to lead the team and develop the front-end components, ensuring a seamless and user-friendly interface

Analysis And Prevention Of AI-Based Phishing Email Attacks

2025

- Technology: HTML, CSS, Python, Dataset, XG-boost algorithm
- In this project, we developed a system to classify email messages as spam or not spam. To achieve optimal prediction accuracy, we used a dataset along with the XG-Boost algorithm for effective spam detection
- In this project, my role involved handling the back-end processes using Python, Flask, and Pandas to ensure smooth data handling and functionality.
